

The SPG and South Asia

copies of letters received and sent, 1833-1931 (CLR & CLS)

contents list to the microfilm edition (ISBN 978-1-85117-224-5)

The CLR series comprises in total 223 volumes of copies of letters received for the period 1833-1928 by the London offices of the Society for the Propagation of the Gospel in Foreign Parts (SPG), an Anglican missionary organisation founded by royal charter in 1701. The CLS series contains 162 volumes of copies of letters sent during the period from 1833 to 1931. The letters are arranged in volumes geographically by diocese, beginning in both series with British India, including those covering the Diocese of Rangoon*. Occasional changes reflect developments in the diocesan structure. At first the volumes includes copies of all the letters, though at an unspecified later date the practice was amended, such that only the more important items were kept, either transcribed by hand or by pasting in cyclostyle copies.
